

MARCUS VANCE

Seattle, WA | (555) 456-7890 | marcus.vance@example.com | github.com/marcus-vance

SUMMARY

Senior Backend & Cloud Infrastructure Engineer with 7 years of expertise in Python, Node.js, PostgreSQL, Docker, AWS, and Microservices Architecture. Proven track record of building resilient distributed microservices handling millions of API requests daily.

CORE COMPETENCIES

- Backend Languages: Python (FastAPI, Django, Flask), Node.js, Go, SQL
- Cloud & DevOps: AWS (EC2, ECS, S3, RDS, CloudFront), Docker, Kubernetes, Terraform, CI/CD
- Databases: PostgreSQL, MySQL, Redis, MongoDB, Prisma ORM
- Architecture: REST APIs, GraphQL, Microservices, Event-Driven Systems (Kafka, RabbitMQ)

EXPERIENCE

Senior Backend Engineer | CloudScale Systems (2020 - Present)

- Designed and maintained high-throughput REST & GraphQL backend services handling 15M+ daily requests.
- Migrated legacy monolithic architecture to containerized Kubernetes microservices on AWS, lowering cloud infrastructure expenditure by 35%.
- Implemented robust PostgreSQL database indexing and query optimizations for complex multi-table joins.

Backend Software Developer | Apex Solutions (2017 - 2020)

- Developed secure authentication services and API endpoints using Python FastAPI and Node.js.
- Configured automated CI/CD deployment pipelines using GitHub Actions and Docker.

EDUCATION

B.S. in Computer Engineering | University of Washington (2013 - 2017)
